Honorable Mayor Members of Council and Citizens City of Port Wentworth, Georgia

State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2011.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed the benefits, the objective is to provide a reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Karp, Ronning & Tindol, Certified Public Accountants, have issued an unqualified ("clean") opinion on the City of Port Wentworth's financial statements for the fiscal year ended June 30, 2011. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The City of Port Wentworth (the City) is located in Chatham County near the Georgia Ports Authority and borders Effingham County and South Carolina, encompassing 15.6 square miles with a population of 5,359 according to the 2010 Census.

The City was founded in 1733 and incorporated in 1957. Under the Charter, the City Council is comprised of a Mayor and six (6) Council Members who enact local legislation, determine the policy and direction of the City, and adopt the operating budget. The Mayor and Council are elected for four (4) year staggered terms.

The City Council employs a City Administrator to manage the City on a daily basis and implement the policies and programs enacted by Council. The City also employs a Clerk of Council who serves as the official record keeper of the City.

The City is a full service municipality providing general governmental, public safety, recreation, street maintenance, code enforcements, solid waste, water, sanitary sewer, and other services. The criteria used by the City for including activities in preparing its financial statements are set forth in Governmental Accounting Standards Board (GASB) Statement No. 14. Based on these criteria, all municipal services listed above are included in the City's financial statements. There are no active entities considered to be component units, or legally separate entities, for which the City is financially responsible.

The City Council adopts and reports annual budgets for the general and special revenues funds as required by State law. The legal level of control (the level at which expenditures may not exceed appropriations) is at the department level.

ECONOMIC CONDITION AND OUTLOOK

Summary of Local Economy

Although the City has been affected by the national economic recession over the past couple of years, it shows signs of recovery. Property taxes and charges for services have both increased during the fiscal year ended June 30, 2011. In addition, water and sewer fee collections have also grown over the past year. Population growth accounts for most of the City's improved tax and fee revenue.

Employment statistics reported in the 2000 Census showed that Port Wentworth's unemployment rate was 1.6% of the civilian labor force compared to 3.7% for Chatham County. Unemployment statistics for the 2010 Census have not been released. The Georgia Department of Labor indicates that the annualized average unemployment rate for Chatham County in 2010 was 9.1%. As of June 30, 2011, the unemployment rate had increased to 9.8%.

According to the Savannah Area Chamber of Commerce, the top employers in the Savannah-Chatham MSA (Metropolitan Statistical Area) in 2010 included Gulfstream Aerospace, Fort Stewart/Hunter Army Airfield, Memorial Health University, Savannah-Chatham County Board of Education, St. Josephs/Candler Hospital, Wal-Mart, City of Savannah, Momentum Resources II, Inc., Savannah College of Art & Design, and Chatham County.

According to the Georgia Department of Labor, by the first quarter of 2011, the percentage of employed persons by sector included:

Good producing sector 13.1% Service producing sector 72.6% Government 14.3%

Prospects for the Economy

Port Wentworth is a bedroom community in the Savannah-Chatham County MSA. The local economy mirrors the larger region. The Georgia Department of Labor projects that Chatham County's population will increase 7.6% by 2015. We anticipate the City's population and home construction to continue, though not as rapidly as in the past couple of years. By analyzing building permits and issued certificates of occupancy, we project that the City's population will be over 7,000 people by 2015.

Relevant Financial Policies

Adherence to the City's financial planning, revenue, and expenditure policies have allowed the City to maintain general fund unassigned fund balance of \$4,194,564. Without additional revenue enhancements such as millage rate increase or increase in charges for services, this fund balance will be critical to fund the current level of government service in the future.

Major Initiatives

Major projects and initiatives started and/or completed in FY 2011 included:

- Completion of the new wastewater treatment plant
- Fire station #2 addition
- Water and sewer at Berrien and Saussy Roads
- Hwy 21/I95 force main
- Downtown sewer rehabilitation

OTHER INFORMATION

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Port Wentworth for its comprehensive annual financial report for the year ended June 30, 2010. This was the eleventh year the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A certificate of achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

FINAL COMMENTS

The preparation of this report would not have been possible without the efficient and dedicated service of the City's staff. We wish to express our appreciation to all members of the staff who assisted and contributed to the preparation of this report. Finally, credit also must be given to Mayor and Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Port Wentworth's finances.

Respectfully submitted,

Cheer Clayton

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Port Wentworth Georgia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2010

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the City Council City of Port Wentworth, Georgia, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Port Wentworth, Georgia (City), as of and for the year ended June 30, 2011, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the management of the City. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2011, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 5, 2011 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the required supplementary information other than Management's Discussion and Analysis beginning on page C-1 and E-1, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the supplementary data - individual fund statements, schedules and state mandated program information, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary data - individual fund statements, schedules and state mandated program information have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Nonprofit Organizations, and is also not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management's Discussion and Analysis

INTRODUCTION

Our discussion and analysis of the financial performance of the City of Port Wentworth provides an overview of the City's financial activities for the fiscal year ended June 30, 2011. The intent of this management discussion and analysis is to look at the City's financial performance as a whole. Readers should also review the transmittal letter, financial statements and notes to the financial statements to enhance their understanding of the City's financial performance.

The basic financial statements contain three components:

- 1. Government-wide financial statements including the Statement of Net Assets and the Statement of Activities which provide a broad overview of the City's finances;
- 2. Fund financial statements, including the balance sheets, that provide a greater level of detail of revenues and expenditures and focus on how well the City has performed in the short term in the most significant funds, and;
- 3. Notes to the financial statements.

This report presents the financial highlights for last year and contains other supplementary information.

FINANCIAL HIGHLIGHTS

- ⇒ The City's assets exceeded its liabilities at June 30, 2011 by \$45,063,164 (net assets). Of this amount, \$11,016,079 (unrestricted net assets) may be used to meet the City's ongoing obligations to citizens and creditors.
- ⇒ The City's total net assets increased \$3,547,782 which is comprised of a \$2,845,698 increase resulting from business-type activities in addition to a \$702,084 increase resulting from governmental activities.
- ⇒ Key factors resulting in the governmental activities increase in net assets include the following.
 - 1. Charges for services were around \$2,057,000 an increase of approximately \$89,000 from the previous year;
 - 2. Grants and contributions approximated \$628,000, primarily from intergovernmental agencies;
 - 3. Tax revenues were approximately \$3,953,000, an increase from 2010 of approximately \$213,000;
 - 4. General governmental activity expenses were approximately \$6,044,000, an increase of around \$263,000 from the previous year; and
- ⇒ Key factors resulting in the business-type activities increase in net assets include:
 - 1. Charges for services increased approximately \$214,000 as a result of new connections;
 - Capital grants and contributions received this year were \$2,889,074 from aid to construction and federal grants obtained for construction of the new wastewater treatment plant and various sewer projects; and

Management's Discussion and Analysis (cont.)

- ⇒ At June 30, 2011, the City's governmental funds balance sheet reports combined ending fund balances of \$10,649,360, a increase of \$626,439 from the previous fiscal year. Of this amount, \$4,194,564 remains in the general fund of the City as unassigned.
- ⇒ Total long-term liabilities related to contractual obligations to the Georgia Environmental Facilities Authority (GEFA) and United States Department of Agriculture (USDA) increased by approximately \$154,000 from the previous fiscal year. The key factor in this increase was the approval of funds for the construction on the new wastewater treatment facility.

OVERVIEW OF THE FINANCIAL STATEMENTS

Government-wide Financial Statements:

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private sector business. The Statement of Net Assets and the Statement of Activities provide information about the activities of the City as a whole, presenting both an aggregate and long-term view of the finances. These statements include all assets and liabilities using the accrual basis of accounting. This basis of accounting includes all of the current year's revenues and expenses regardless of when cash is received or paid.

The <u>Statement of Net Assets</u> presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The <u>Statement of Activities</u> presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both statements attempt to distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

Governmental activities reported in the statements include General Government, Judicial, Public Safety, Public Services, Leisure Services and Housing and Development. Business-type activities in the City include water and sewer services (Water and Sewer Enterprise Fund).

The government-wide financial statements can be found on pages D-1 through D-3 of this report.

Fund Financial Statements:

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the City government can be divided into three categories: governmental, proprietary, and fiduciary funds.

Management's Discussion and Analysis (cont.)

Governmental funds - Governmental funds, presented on pages D - 4 to D - 7, essentially account for the same functions as those reported under the government-wide statement of net assets and statement of activities. However, this set of financial statements focuses on events that produce near-term inflows and outflows of spendable resources as well as on the balances of spendable resources available at the end of the fiscal year and is a narrower focus than the government-wide financial statements. Such information may be useful in evaluating the City's near-term financing requirements and available resources.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are on pages D - 5 and D - 7.

The majority of the City's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year-end that are available for spending. They are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's operations and the services it provides.

Proprietary funds - The City maintains and presents one type of proprietary fund, an enterprise fund found on pages D - 8 to D - 11 of this report.

Enterprise funds report, in greater detail, the same information presented as business-type activities in the Government-wide Financial Statements. The Water and Sewer Enterprise Fund is the only major proprietary fund.

Fiduciary funds - The City maintains and presents one type of fiduciary fund, an agency fund found on page D - 12 of this report.

The Municipal Court Fund is the only fiduciary fund.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in both government-wide and fund financial statements. Notes are presented on pages D - 13 to D - 30 of this report.

Other information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's budget process. This required supplementary information begins on page E - 1 of this report.

Management's Discussion and Analysis (cont.)

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Assets:

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The City's combined net assets (government and business-type activities) totaled approximately \$45 million on June 30, 2011.

City of Port Wentworth's Net Assets												
		Governme	ental	Activities		Business-T	Activities	Total				
		2011	-	2010		2011		2010		2011		2010
Assets												
Current and other assets	\$	11,989,554	\$	11,239,053	\$	4,708,909	\$	10,415,291	\$	16,698,463	\$	21,654,344
Capital assets, net		8,480,225		8,421,420		26,894,246		18,663,329		35,374,471		27,084,749
Total assets		20,469,779		19,660,473		31,603,155		29,078,620		52,072,934		48,739,093
Liabilities Other liabilities Long-term liabilities Total liabilities		1,205,081 237,675 1,442,756		910,790 424,744 1,335,534		912,233 4,654,781 5,567,014		1,350,771 4,537,406 5,888,177		2,117,314 4,892,456 7,009,770		2,261,561 4,962,150 7,223,711
Net assets Invested in capital assets, net of related debt Restricted Unrestricted		8,207,771 3,706,857 7,112,395		8,115,438 3,441,702 6,767,799		22,132,457 - 3,903,684		14,055,599 - 9,134,844		30,340,228 3,706,857 11,016,079		22,171,037 3,441,702 15,902,643
Total net assets	\$	19,027,023	\$	18,324,939	\$	26,036,141	\$	23,190,443	\$	45,063,164	\$	41,515,382

The largest portion of the City's net assets (67.3%) reflect its investment in capital assets such as land, buildings, and equipment, less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to pay these liabilities.

An additional portion of the City's net assets (8%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of the City's net assets (24.7%) represents the unrestricted net assets, may be used to meet the City's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net assets.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net assets for the government as a whole. Positive balances are reported for the City's separate governmental and business-type activities.

Within the City's governmental activities, restricted net assets increased \$265,155 in connection with resources externally restricted for Capital Projects.

The City's total net assets increased approximately \$3,548,000. Business-type activities increased approximately \$2,846,000, while government-type activities increased approximately \$702,000.

Management's Discussion and Analysis (cont.)

Change in net assets:

Approximately 36% of the City's total revenue came from charges for various goods and services, 33% resulted from taxes, and 29% from grants and contributions. The City's expenses cover a range of services. The largest expenses were for public safety, public works, housing and development, and water and sewer services.

The increase in net assets for governmental activities was \$702,084. The key reasons for this increase were discussed earlier in the financial highlights section. The business-type activities net assets increased approximately \$2.8 million for the fiscal year ended June 30, 2011. The key factors for this increase were also discussed earlier in the financial highlights section.

Management's Discussion and Analysis (cont.)

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

The City utilizes fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds:

Governmental funds provide information on near-term inflows, outflows, and balances of available resources. The governmental fund types include the general fund, special revenue fund, and capital projects fund. The General Fund and the Capital Projects Fund are reported as the City's major funds. The special revenue funds, Confiscated Assets Fund and Hotel-Motel Tax Fund, are presented as Other Governmental Funds.

General Fund

The general fund is the chief operating fund of the City. As of June 30, 2011, the total fund balance in the general fund was \$6,920,242. The total amount of unassigned fund balance for the general fund is \$4,194,564. Assigned fund balance for capital asset replacement was \$771,666 and nonspendable fund balance related to prepaid insurance was \$52,638.

One measure of the general fund's liquidity is to compare its unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 73% of total general fund expenditures, while total fund balance represents 121% of that same amount.

The fund balance of the general fund increased \$351,957 during the current fiscal year. Revenues were approximately \$322,000 more than last year, expenditures were up by \$586,000 and overall, the City was able to meet its operating expenditures with current revenues. Excess revenues over expenditures were \$658. Reasons for the increase in fund balance include proceeds for sales of assets and revenue generated from property taxes and charges for services.

Capital Projects

The capital projects fund has a total fund balance of \$3,706,857 which must be used for paving, drainage, fire safety, open space, and waste water treatment projects. The fund balance increased \$265,155 for the current fiscal year primarily due to collections received from the 2008 SPLOST referendum. The Schedule of Projects Constructed with Special Purpose Local Option Sales Tax Proceeds is shown beginning on page F - 3.

Proprietary Funds:

Proprietary fund statements provide the same information as in the business activities column of the government-wide statements, only in greater detail. The City currently utilizes only one enterprise fund in the proprietary fund financial statements, the water and sewer enterprise fund. An enterprise fund is required to be used to account for the operations for which a fee is charged to external users for goods or services.

At June 30, 2011, total net assets amounted to \$26,036,141, for the enterprise fund as compared to \$23,190,443 at June 30, 2010. The growth in the net assets of \$2,845,698 was discussed earlier in the financial highlights section. The enterprise fund is reflected on pages D - 8 to D - 11.

Management's Discussion and Analysis (cont.)

CAPITAL ASSETS

The Statement of Net Assets presents capital assets in two groups: those assets subject to depreciation, such as equipment or operational facilities, and those assets not subject to depreciation, such as land and construction-in-progress. At June 30, 2011, the City's net capital assets for both governmental activities and business-type activities totaled \$35,374,471. Capital assets include assets purchased and donated, land, buildings, system improvements and machinery and equipment. Capital assets increased \$8,289,722, or 31%, from fiscal year 2010 to 2011. Major capital asset events during the year included construction of water and sewer facilities, various drainage and sewer projects, and capital outlays for police vehicles.

Additional information on the City's capital assets can be found in Note 2.C on pages D - 22 and D - 23.

DEBT ADMINISTRATION

The long-term liabilities at June 30, 2011, totaled \$4,892,456. Of this amount, \$237,675 relates to the governmental activities and \$4,654,781 relates to the business-type activities.

Total debt of governmental activities increased by approximately \$32,000 while business-type activities increased by approximately \$145,000 from June 30, 2010. Governmental activity debt increases are mainly due to changes in compensated absences. The business-type debt net increase resulted primarily from current year borrowings on loans from GEFA and USDA for capital projects, specifically construction of the wastewater treatment facility. Additional information on the City's debt and capital leases can be found in Note 2.E and Note 2.F on pages D - 25 through D - 27.

GENERAL FUND BUDGETARY HIGHLIGHTS

The budgetary comparison schedule of the General Fund provided as required supplementary information other than MD&A can be found beginning on page E - 1.

The overall operations of the City are similar to directing a large multi-million dollar business. Budget amendments are approved throughout the year to more accurately reflect the ongoing changes and to abide by state laws. The original budget was adopted on June 24, 2010, for the fiscal year ended June 30, 2011.

During the year there were supplemental appropriation increases totaling \$690,545 between the original and final amended budget. The supplemental appropriation increases were needed for general administrative cost increases.

The total revenues actually recorded for this fiscal year were \$5,739,528 which is \$17,082 less than the final budgeted figure.

Individual major category variances in resources and explanations are as follows:

- ⇒ Taxes were under budget by \$3,950. This is due to decreased amounts received for intangible recording taxes and insurance premium tax.
- ⇒ Charges for services were under budget by \$5,378 due to decreases in concession sales and cut-off fees.
- ⇒ Miscellaneous revenue was \$2,914 less than budgeted due to a reduction in gym and public facilities use.

Management's Discussion and Analysis (cont.)

⇒ Investment income was less than budgeted by \$2,426 as a result of a decrease in principal investments and decline in interest rates.

The total expenditures actually recorded for the 2011 fiscal year were \$5,738,804. This figure is \$616,620 less than the final budgeted figure.

Individual major category variances in appropriations are as follows:

- ⇒ General administration expenditures were \$20,741 less than budgeted due to anticipated purchase and installation of a fence that was not acquired in the 2011 fiscal year.
- ⇒ The fire department's actual expenditures were \$294,512 lower than budgeted as a result of workers compensation insurance costs being less than estimated, purchase of an aerial ladder truck costing less than budgeted, and incomplete structural improvements to Fire Station #2. The fire station was anticipated to be completed in fiscal year 2011, but instead construction will be completed in fiscal year 2012.
- ⇒ Due to fewer new developments within the City, the Inspections department spent about \$76,000 less than anticipated.
- ⇒ The highways and streets department expenditures were approximated \$73,000 lower than budgeted due to a personnel vacancy and expenditures being less than expected.

ECONOMIC, FISCAL YEAR 2011 BUDGETS AND RATES

The City adopted a \$6,266,554 governmental funds budget for fiscal year 2011. Although not required to budget enterprise fund activity, the City also adopted a \$19,470,577 water and sewer fund budget. The City will continually look for new ways in the future to reduce the reliance on one-time revenue sources. The millage rate for calendar year 2010, or Fiscal Year 2011, was 4.397 mills.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview for the governmental operations of the City of Port Wentworth. It is designed for anyone with an interest in our government's finances and management. Questions concerning any of the information provided in this report or requests for additional financial information may be addressed to the City of Port Wentworth, City Administrator, 305 South Coastal Highway, Port Wentworth, Georgia 31407.

Notes to the Basic Financial Statements

1. Summary of Significant Accounting Policies

The financial statements of the City of Port Wentworth (the City) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting for establishing governmental accounting and financial reporting principles. The significant accounting policies are described below:

A. Financial Reporting Entity

The City was founded in 1733 and incorporated in 1957 and operates under the laws of the State of Georgia applicable to municipal corporations. As required by generally accepted accounting principles, the financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. When there is significant component unit activity or assets, the discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

The City's primary government major operations include general administrative functions, police and fire protection, street construction and maintenance, sanitation services, culture and recreation, planning and zoning, and water and sewer services. The City has no blended component units.

The Port Wentworth Downtown Development Authority (the Authority), a component unit, was formed in March 2001, with the primary mission to promote the development of an economically viable business district as allowed by state statue. The Authority has a June 30 fiscal year end. At this time the Authority has no significant activity or assets and is in a dormant status and, as a result, is not reported in the government-wide financial statements.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component unit. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from its legally separate component unit for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or activity is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or activity, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to the Basic Financial Statements (cont.)

1. Summary of Significant Accounting Policies (cont.)

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year of which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, revenues are considered to be available if they are collected within thirty (30) days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated within the current period are all considered to be susceptible to accrual and so have been organized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Fiduciary (agency) funds are used to report assets held in an agency capacity for others and therefore are not available to support City programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Agency funds report only assets and liabilities.

The city reports the following major governmental funds:

- General Fund The government's primary operating fund. It accounts for all financial
 resources of the general government, except those required to be accounted for in another
 fund.
- Capital Projects Capital Projects Fund The fund that accounts for the City's share of the special purpose local option sales tax (SPLOST) proceeds which are restricted for the acquisition or construction of specific capital projects or items.

The City reports the following major proprietary fund:

 Enterprise - Water and Sewer Fund - The water and sewer fund operates the water distribution system, the sewer treatment plant, sewage pumping stations and collection systems.

Notes to the Basic Financial Statements (cont.)

1. Summary of Significant Accounting Policies (cont.)

Additionally, the City reports the following fund types:

- Special Revenue Funds Special Revenue Funds account for revenue derived from specific revenue sources that are restricted to expenditures for specified purposes.
- Agency Fund Municipal Court Fund The municipal court fund accounts on a temporary basis for fines collected by the municipal court that ultimately are transmitted to the general fund.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of the interfund activity has been eliminated for the government-wide financial statements.

Amounts reported as program revenues include: 1) charges to customers, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer enterprise fund are charges to customers for sales and services. The water and sewer fund also recognizes as revenue the portion of the tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the water and sewer enterprise fund include the cost of sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities, and Equities

1. Cash and investments - The City's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the City to invest in obligations of or obligations guaranteed by the U.S. Government and agencies or corporations of the U.S. Government; obligations of any state; obligations of any political subdivision of any state; certificates of deposit or time deposits of any national state bank or savings and loan which have deposits insured by the FDIC and FSLIC; prime bankers acceptances, repurchase agreements; and the Local Government Investment Pool of the State of Georgia (Georgia Fund 1).

Investments for the City are reported at fair value. The City invested funds in Georgia Fund 1, a local government investment pool. Georgia Fund 1 is managed by the State of Georgia's Office of Treasury and Fiscal Services under Georgia Law (OCGA 36-83-8). The pool operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the SEC as an investment company. The fair value of the City's position in the pool is the same as the value of pool shares (\$1 per share value).

Notes to the Basic Financial Statements (cont.)

- 1. Summary of Significant Accounting Policies (cont.)
- 2. Receivables and payables Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal period are referred to as either "due from/to other funds" (i.e., the current portion of interfund loans) or "advances from/to other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due from/to other funds". Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade receivables are shown net of an allowance for uncollectible accounts. Delinquent accounts receivables based on prior credit experience are provided for by an allowance for uncollectibles. The general fund sanitation allowance for uncollectibles is \$8,000, hotel-motel tax fund allowance for uncollectibles is \$30,000, and the water and sewer enterprise fund allowance for uncollectibles is \$17,000 at June 30, 2011.

Property taxes are levied as of January 1 on property values assessed on the same day. A millage rate of 4.397 mills was adopted on July 22, 2010. The tax levy is divided into two billings: the first billing (mailed April 30th) is an estimate of the current year's levy based on the prior year's taxes; the second billing (mailed October 31st) reflects adjustments to the current year's actual levy. The billings are considered past due 60 days after the respective tax billing date at which time the applicable property is subject to lien and penalties and interest are assessed.

- 3. Prepaid items Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items using the consumption method are reported as assets and are recognized as expenditures when used.
- 4. Restricted assets Assets are reported as restricted when limitations on their uses change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the general fund and the water and sewer enterprise funds represent cash and cash equivalents set aside for repayment of sanitation cart deposits and water utility deposits to customers.
- 5. Capital assets Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. The amounts spent for the construction or acquisition of general infrastructure assets subsequent to July 1, 2003 are capitalized and reported in the government-wide financial statements regardless of their amount. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. General infrastructure assets acquired prior to July 1, 2003 are not reported in the government-wide financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are reported at their fair value as of the date received. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Notes to the Basic Financial Statements (cont.)

1. Summary of Significant Accounting Policies (cont.)

All capital assets are depreciated, except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation for governmental and business-type activities is computed using the straight-line method over the following useful lives:

Assets	Years
Buildings and improvements	20 - 50
Infrastructure	20 - 50
Machinery and equipment	5 - 20
Vehicles	3 - 8

- 6. Compensated absences It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and sick pay benefits (when material) are accrued when incurred in the governmental-wide and proprietary fund financial statements. No liability is recorded in the government fund statements unless the amount is due and payable at year end.
- 7. Long-term obligations In the government-wide financial statements and proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, or business-type activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Fund equity -

<u>Fund financial statements</u> –Beginning with fiscal year 2011, the City implemented GASB Statement 54, "Fund Balance Reporting and Governmental Fund Type Definitions". This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- *Non-spendable* includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation.
- *Committed* includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority and does not lapse at year-end.

Notes to the Basic Financial Statements (cont.)

- Summary of
 Significant
 Accounting
 Policies (cont.)
- Assigned includes fund balance amounts that are intended to be used for specific
 purposes that are neither considered restricted or committed. Intent can be
 expressed by the governing body or by an official or body to which the governing
 body delegates the authority.
- Unassigned includes fund balance amounts that are available for any purpose; positive amounts are reported only in the general fund.

City Council establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by City Council through adoption or amendment of the budget as intended for specific purposes (such as the purchase of fixed assets, construction, debt service, or for other purposes).

When both restricted and unrestricted amounts of fund balances are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

 $\underline{\text{Government-wide financial statements}}$ - Equity is classified as net assets and displayed in three components:

- Invested in capital assets, net of related debt Amount of capital assets, net of accumulated depreciation, less outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted net assets Amounts of net assets that are subject to restrictions
 that are imposed by 1) external groups, such as creditors, grantors,
 contributors, or laws and regulations of other governments; or 2) law
 through constitutional provisions or enabling legislation.
- 3. *Unrestricted net assets* Net assets that are classified neither as restricted net assets nor as invested in capital assets, net of related debt.
- 9. *Use of estimates* The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that may affect the amounts reported in the financial statements and the related notes. Accordingly, actual results could differ from these estimates.
- 2. Detailed Notes on all Funds

A. Cash and Investments

As of June 30, 2011, the City had the following investments:

Investment	Maturities	Fair Value
Georgia Fund I (Local Government Investment Pool)	Less than 1 Year	\$ 5,941,649

Notes to the Basic Financial Statements (cont.)

2. Detailed Notes on all Funds (cont.)

Interest rate risk – the risk that changes in interest rates will adversely affect the value of an investment. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk – the risk that an issuer or counterparty to an investment will not fulfill its obligations. The City has no investment policy that would further limit its investment choices from those authorized and listed in Note 1.D.1. As of June 30, 2011, the City's investment in the Georgia Fund I was rated AAAm by Standards & Poor's.

The carrying amount of the City's cash and investments totaled \$15,486,488 on June 30, 2011 as summarized below (by type and by balance sheet classification):

Accounts by Type	June 30, 2011		
Deposits	\$ 9,544,039		
Investments	5,941,649		
Petty cash funds	800		
Total carrying value of cash and cash equivalents	\$ 15,486,488		
Accounts by Balance Sheet Classification	June 30, 2011		
Cash and cash equivalents	\$ 14,989,377		
Restricted cash and cash equivalents	456,354		
Agency fund cash	40,757		
Agency fund cash			

Custodial credit risk - the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. Official Code of Georgia Annotated (O.C.G.A.) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by a surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the fair value of securities pledged shall be equal to not less than 110% of the public funds being secured after the deduction of insurance provided by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for interest bearing accounts and \$250,000 for non-interest bearing accounts. The City has no custodial credit risk policy that would require additional collateral requirements. At June 30, 2011, 100% of the City's deposits were insured or collateralized with securities held by the City, an agent in the name of the City, or securities pledged by financial institutions in the name of the City.

Notes to the Basic Financial Statements (cont.)

2. Detailed Notes on all Funds (cont.)

B. Receivables

Receivables as of year-end, including the applicable allowances for uncollectibles, are as follows:

June 30, 2011	General	Capital Projects	Nonmajor Governmental Funds	Water and Sewer	Total
Receivables					
Taxes	\$ 489,312	\$ -	\$ 81,680	\$ -	\$ 570,992
Accounts	134,322	-	-	293,058	427,380
Intergovernmental	200,847	45,377	-	-	246,224
Gross receivables Allowance for	824,481	45,377	81,680	293,058	1,244,596
uncollectibles	(8,000)	-	(30,000)	(17,000)	(55,000)
Total net receivables	\$ 816,481	\$ 45,377	\$ 51,680	\$ 276,058	\$ 1,189,596

Substantially all receivables are expected to be collected within one year.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. Taxes are due and payable when levied. Liens may be placed on property once the related tax payments become delinquent. A lien on such property becomes enforceable 60 days after final notification on delinquency of property taxes. Due to the liens on the delinquent property tax accounts, no allowance amount has been established. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the general fund were as follows:

June 30, 2011	Unavailable	Unearned	Total Deferred
2011 Property tax collection Delinquent property taxes receivable Franchise taxes receivable	\$ 210,173 257,687	\$ 384,807 - 3,584	\$ 384,807 210,173 261,271
	\$ 467,860	\$ 388,391	\$ 856,251

Notes to the Basic Financial Statements (cont.)

2. Detailed Notes on all Funds (cont.)

C. Capital Assets

Capital asset activity for the year ended June 30, 2011 was as follows:

	Beginning					Ending

Investment in capital assets, net of related debt					\$	22,132,457

Notes to the Basic Financial Statements (cont.)

2. Detailed Notes on all Funds (cont.)

Depreciation expense was charged to governmental and business-type activities as follows:

June 30, 2011

Governmental activities		
General government	\$	28,766
Public safety		239,696
Public works (streets and sanitation)		267,309
Culture and recreation		60,049
Planning and zoning		11,481
Total governmental activities depreciation expense	\$	607,301
Business-type activities		
Sewer	\$	393,185
Water		236,840
Water		236,8
Total business-type activities	ф	<20.02V
depreciation expense	\$	630,025

The City sold assets during the current fiscal year for \$90,493 resulting in a gain on sale of \$57,204.

D. Interfund Receivables, Payables, and Transfers

Interfund receivable and payable balances as of June 30, 2011 are as follows:

Receivable Fund	Payable Fund	Amount
General Fund General Fund	Non-major Governmental Fund Water and Sewer Fund	\$ 76,566 50,449
Total interfund receivables and	l payables	\$ 127,015

These balances represent loans between the borrower fund and the lender fund. These balances resulted from the time lag between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. Interfund receivables and payables are reported in the fund financial statements; however, they are eliminated in the government-wide financial statements if the interfund loan is between governmental funds.

A summary of interfund transfers by fund type is as follows:

Transfer In	Transfer Out	Purpose	Amount
General Fund	Non-major Governmental Fund	Distribution of tax revenue	\$ 257,829
			\$ 257,829

Notes to the Basic Financial Statements (cont.)

2. Detailed Notes on all Funds (cont.)

Interfund transfers are used to: 1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, 2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and 3) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers are eliminated in the government-wide financial statements if the interfund transfer is within the governmental fund group.

E. Capital Leases

The City has entered into lease agreements as lessee for financing of fire equipment used in governmental activities. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of future minimum lease payments as of the inception date.

June 30, 2011	Governmental Activities
Machinery and equipment Less accumulated depreciation	\$ 376,000 75,200
Total	\$ 300,800

The following is a schedule of the future minimum lease payments under the capital leases, the present value of the net minimum lease payments at June 30, 2011:

Year ending June 30,	Governmental Activities
2012	\$ 44,942
2013	44,942
2014	44,942
2015	44,942
2016	44,942
2017 - 2018	89,881
Total minimum lease payments	314,591
Less amount representing interest	42,137
Present value of minimum lease payments	\$ 272,454

Notes to the Basic Financial Statements (cont.)

2. Detailed Notes on all Funds (cont.)

F. Long-term Debt

Notes and loans payable - business-type activities

GEFA Loans - The City has entered into a loan agreement with the Georgia Environmental Facilities Authority (GEFA), a state agency. The GEFA makes low interest long-term loans to fund improvements to publicly owned water and sewer systems. A 5.4% GEFA loan was executed in fiscal year 2004, for \$2,091,667, with a maturity date of September 1, 2021. This loan provided funding for a new water and sewer extension.

During the year ended June 30, 2010, the City entered into a loan agreement up to \$10,000,000 with GEFA for the construction of a new wastewater treatment plant. As of June 30, 2011, the City had drawn down \$10,000,000, of which \$4,000,000, or 40% of principal, has been forgiven in accordance with Title VII of Division A of the American Recovery and Reinvestment Act of 2009 (ARRA). On June 30, 2011, the City paid off its outstanding principal balance of \$6,000,000 including the accrued interest of \$106,546.

Annual debt service requirements to maturity for the GEFA loans are as follows:

	Business-Type Activities									
Year ending June 30,		Principal		Interest		Total				
2012	\$	107,009	\$	73,920	\$	180,929				
2013		112,905		68,024		180,929				
2014		119,126		61,803		180,929				
2015		125,691		55,238		180,929				
2016		132,617		48,312		180,929				
2017 - 2021		781,091		123,553		904,644				
2022		30,138		407		30,545				
				_						
	\$	1,408,577	\$	431,257	\$	1,839,834				

USDA Loan - During the year ended June 30, 2010, the City entered into a \$7,592,300 loan agreement with United States Department of Agriculture, Rural Development, Community Programs Division, for additional funding for construction of the new wastewater treatment plant and for other water and sewer capital improvements. As of June 30, 2011, the City had drawn down \$3,106,437 for the construction of the wastewater treatment plant and \$246,775 for other water and sewer capital improvement projects. During the two year construction period, interest accrues at a rate equal to 67% of LIBOR plus 2.25% per annum. After the two years, interest payable at 3% per annum and unpaid principal are due monthly over a period not to exceed forty years. Annual debt service requirements are not included since the loan is still in draw down phase.

Notes to the Basic Financial Statements (cont.)

2. Detailed Notes on all Funds (cont.)

Construction period interest for both GEFA and USDA loans totaling approximately \$133,000 has been capitalized during the year ended June 30, 2011 to infrastructure.

Changes in long-term liabilities:

	C	Outstanding 07/01/10	Issued	Retired	C	Outstanding 06/30/11	ne Within One Year
Governmental activities Capital leases Compensated absences	\$	305,982 232,190	\$ 155,120	\$ 33,528 89,342	\$	272,454 297,968	\$ 34,779 297,968
Total governmental activities	\$	538,172	\$ 155,120	\$ 122,870	\$	570,422	\$ 332,747
Business-type activities Loans payable Compensated absences	\$	4,607,730 41,296	\$ 6,255,479 11,904	\$ 6,101,420 20,789	\$	4,761,789 32,411	\$ 107,008 32,411
Total business-type activities	\$	4,649,026	\$ 6,267,383	\$ 6,122,209	\$	4,794,200	\$ 139,419

For the governmental activities, long-term liabilities are generally liquidated by the general fund. For business-type activities, long-term liabilities are liquidated by the water and sewer enterprise fund.

On July 1, 2011, the City adopted a new personal time off program (PTO). All compensated absence balances under the old vacation and sick leave policy remaining at June 30, 2011 must be used or cashed out within twelve months. Therefore, for the year ended June 30, 2011, all compensated balances are due within one year.

3. Other Information

A. Defined Benefit Pension Plan

Plan description - The City's defined benefit pension plan, City of Port Wentworth Retirement Plan (the Plan), provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The Plan is an agent multiple-employer pension plan administered by the Georgia Municipal Employees Benefit System (GMEBS). Benefit provisions and other requirements are established and may be amended by local ordinance. The GMEBS issues a publicly available financial report that includes financial statements and required supplementary information for the Plan. That report may be obtained by writing to Georgia Municipal Employees Benefit System, 201 Pryor Street South West, Atlanta, Georgia 30303.

All full-time employees are eligible for participation in the Plan. Any eligible employee who has completed one year of service may participate in the Plan. Employees become vested after five years of service to the City.

The following is the Plan membership at January 1, 2011:

Active Plan participants	60
Retirees and beneficiaries currently receiving benefits	23
Terminated Plan participants entitled to, but not yet receiving	
benefits	23
Cheffs	
Total	106

Notes to the Basic Financial Statements (cont.)

3. Other Information (cont.)

Funding policy - The City is required to contribute at an actuarially determined rate. Section 47-20 of the Georgia Code sets forth the minimum fund standards for state and local governmental pension plans. Administrative expenses are based on total covered compensation of active Plan participants and are added to the state required fund requirements. Employees are not required to contribute to the Plan.

The Georgia Constitution enables the governing authority of the City to establish and amend from time to time the contribution rates for the City and its Plan participants.

The City's funding policy is to contribute at least the minimum actuarially determined contribution in accordance with the State of Georgia's requirements. As of January 1, 2011, the most recent actuarial valuation date, the minimum City contribution rate is 12.44% of covered payroll. There are no legal or contractual maximum contributions to the Plan.

Funding status and funding progress – As of January 1, 2011, the actuarial value of assets was \$4,862,012 and the actuarial accrued liability for the benefits was \$4,140,867. The actuarial value of assets was in excess of the actuarial accrued liability by \$712,145. The actuarial accrued liability includes \$1,697,007 for pensioners and beneficiaries, \$322,673 for inactive participants with vested rights, and \$2,121,187 for active participants. The actuarial value of assets as a percentage of the actuarial accrued liability was 117.42% (funded ratio). The covered payroll (annual payroll of active employees covered by the Plan) was \$2 million and the ratio of the unfunded actuarial accrued liability to the covered payroll was zero.

The annual recommended contribution is the sum of the normal cost, the level dollar amortization of the unfunded actuarial accrued liability, and interest on these amounts from the valuation date to the date contributions are paid. The normal cost, including administrative expenses, was \$160,943.

Actuarial Valuation Information – Actuarial valuations for pension plans involve the estimates of the value of reported amounts and assumptions about the probability of events far into the future, and that actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made in the future.

The City's actuarial valuation information is as follows:

Current valuation date	January 1, 2011
Actuarial cost method	Project unit credit
Amortization method	Level percentage of pay, closed
Amortization period:	
Initial liability	30 years from 1981
Assumption change	30 years from 1981
Plan provisions	20 years from 1981
Actuarial gains and losses	15 years from 1981
Asset valuation method	Smoothed market value
Actuarial assumptions:	
Investment rate of return	7.75%
Projected salary increases	3.5% plus age and merit increases
Expected annual inflation	3.5%
Social security wage base increase	3.5%

Notes to the Basic Financial Statements (cont.)

3. Other Information (cont.)

Three-year trend information – Trend information, which gives an indication of the progress made in accumulating sufficient assets to pay benefits when due, is presented below.

Fiscal Year Ending June 30,	Annual Pension Cost (APC)	Actual Contribution Made	Percentage of APC Contributed	Net Pension Obligations
2009 2010 2011	\$ 189,910 210,120 237,934	\$ 189,910 210,120 237,934	100% 100% 100%	\$ - - -

The Schedule of Funding Progress, presented as Required Supplementary Information, following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of the Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

B. Defined Contribution Plan

Plan description - In April 2001, the City elected to participate in the Georgia Municipal Association (GMA) 401(a) Defined Contribution Plan (the Plan). The Plan is administered by GMA. One employee is eligible to participate in the Plan. The Plan requires the City to contribute 8.2% of the eligible participant's salary (employer portion). There are no required contributions by Plan members. Plan provisions are established in the Plan Adoption Agreement and may be amended by City Council, so long as the amendment is not inconsistent with the Plan, the Internal Revenue Code or other applicable law and is approved by the Trustees of the Plan. During the year ended June 30, 2011, the City paid \$5,699 to the Plan.

C. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions, injuries to employees; and natural disasters. The City has joined together with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Georgia Municipal Association Group Self-Insurance Workers' Compensation Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments.

As part of these risk pools, the City is required to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's attorneys, to follow loss reduction procedures established by the funds and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pool's agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim against the City within the scope of loss protection furnished by the funds.

The City pays unemployment claims to the state department of labor on a reimbursement basis. Liabilities for such claims are immaterial and are not accrued.

Notes to the Basic Financial Statements (cont.)

3. Other Information (cont.)

D. Commitments and Contingencies

The City receives a number of grants which are subject to program compliance audits by the grantors. Non-compliance with the terms and provisions of these grant agreements could result in contingent liabilities to the grantor agencies.

Various claims are pending against the City. The City attorney estimates that the potential effect of these claims net of insurance coverage would not be material in relation to the overall financial statements.

E. Membership in a Regional Development Center

Under Georgia law, the City is a member of the Coastal Regional Commission (CRC) and is required to pay annual dues thereto. During its year ended June 30, 2011, the City paid \$3,502 in such dues. Membership in a Regional Development Center (RDC) is required by the Official Code of Georgia Annotated (O.C.G.A.) Section 50-8-34 which provides for the organizational structure of the RDC in Georgia. The RDC Board membership includes five members from the Chatham County governments: the Mayors of the Cities of Savannah, Pooler, and Tybee Island and two commissioners of Chatham County, Georgia. Therefore, the City of Port Wentworth has no direct representation on the Board. The total Board membership is 37. Other county representation is as follows: Bryan - 3, Bulloch - 5, Camden - 4, Effingham - 4, Glynn - 5, Liberty - 5, Long - 3, and McIntosh - 3. O.C.G.A. 50-8-39.1 provides that the member governments are liable for any debts or obligations of a RDC. Management believes that the RDC is currently accumulating sufficient financial resources to meet its financial obligations. Separate financial statements may be obtained from the Coastal Georgia Regional Development Center, P. O. Box 1917, Brunswick, Georgia 31521.

Notes to Required Supplementary Information

1. Budgetary Information

Budgets and budgetary accounting - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general and special revenue funds. The level of legal budgetary control (the level at which expenditures may not exceed appropriations) is at the department level.

Supplemental appropriations and decreases in budget appropriations were properly approved by the City Council. For the year ended June 30, 2011, the following supplemental increase and decrease in appropriations were approved:

Fund Type	Original Appropriation	Supplemental Appropriations	Supplemental Decreases	Final Appropriation
General	\$ 5,664,945	\$ 690,545	\$ -	\$ 6,355,490
Hotel – motel tax Confiscated	236,353	21,374	-	257,727
assets	-	996	-	996

Comments Relative to Statistical Section

This part of the City of Port Wentworth's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the City's financial position has changed over time.	G - 2
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the City's ability to generate its most significant local revenue sources, the property tax and the sales tax.	G - 12
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	G - 16
Demographic and Economic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	G - 20
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	G - 22

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

Source: Chatham County Tax Commissioner and City records.

(1) Taxes are assessed for the calendar year on January 1. The fiscal year begins six months later on July 1 and ends on June 30 of the following year.

(2) The total tax levy includes real property, industrial area, personal property and public utilities. The total tax levy is the original state approved levy after adjustments for cancelations, releases, errors and additions.

Sources: Assessed value data used to estimate applicable percentages provided by the Chatham County Board of Taxation. Debt outstanding data is provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Port Wentworth. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping payment.

(1) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the City's boundaries and dividing it by each unit's total taxable value. For overlapping other debt (County), the percentage of overlapping debt applicable is estimated using the City's population and dividing it by the county's population. For overlapping other debt (School), the percentage of overlapping debt applicable is estimated using the City's school enrollment and dividing it by the school district's total enrollment.

The present constitutional limit on direct general obligation bonds for the City of Port Wentworth is the amount equivalent to 10% of the net assessed valuation of taxable property for debt service (bond) purposes.

The Constitutional debt limitation applies to all general obligation bonds authorized. Additional general obligation bonds may be authorized to be issued if so approved by a majority of those voting in an election held for that purpose. The City of Port Wentworth has no general obligation bonds authorized but unissued.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council City of Port Wentworth, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Port Wentworth, Georgia, as of and for the year ended June 30, 2011, which collectively comprise the City of Port Wentworth, Georgia's basic financial statements and have issued our report thereon dated November 5, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Port Wentworth, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Port Wentworth, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Port Wentworth, Georgia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City of Port Wentworth, Georgia's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Port Wentworth, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, City Council, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mayor and Members of the City Council City of Port Wentworth, Georgia

Compliance

We have audited City of Port Wentworth, Georgia's compliance with the types of compliance requirements described in the (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of City of Port Wentworth, Georgia's major federal programs for the year ended June 30, 2011. City of Port Wentworth, Georgia's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of City of Port Wentworth, Georgia's management. Our responsibility is to express an opinion on City of Port Wentworth, Georgia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about City of Port Wentworth, Georgia's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of City of Port Wentworth, Georgia's compliance with those requirements.

In our opinion, City of Port Wentworth, Georgia complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the City of Port Wentworth, Georgia is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered City of Port Wentworth, Georgia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of City of Port Wentworth, Georgia's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

This report is intended solely for the information and use of management, City Council, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Notes to Schedule of Expenditures of Federal Awards

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Port Wentworth under programs of the federal government for the year ended June 30, 2011. This information is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. Summary of Significant Accounting Policies

The expenditures reported on this schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the principles in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, in which certain types of expenditures are not allowable or are limited due to reimbursement.

3. Long-Term Debt The U.S. Department of Agriculture (ARRA) federal funding is in relation to a loan. The balance of this loan at June 30, 2011, was \$3,353,212.
